- Camera Kit includes 12VDC power supply, 50' video-power cable, and nylon mounting hardware

SLC-150C Board Camera

Ideal for covert applications out of the box or as the base component in a custom built CCTV camera. The SLC-150C utilizes a Super HAD imager for a clear, crisp image.

The pinhole lens is able to view through a hole only 3/32" in diameter. The camera includes a power supply, mounting hardware, and a 50' video/power cable. The camera includes a pigtail connector with an RCA video and 2.1mm DC jack for connection to the main 50' cable.
