## SLC-3130 Weatherproof IR Bullet Camera

### Features

- Camera type: 1/4" Color CCD
- Video: NTSC, composite 1V p-p, 75 ohm
- Light sensitivity: 0.001 LUX IR on, .2 LUX IR off
- Iris: auto electronic
- Resolution: 420 lines
- Lens: 3.6mm
- Power: 12VDC, approx 200mA
- Connections: Power- 2.1mm, Video BNC
- Temperature Range: 10 to 120 Deg. F.
- Infrared Illuminators: Built into camera to view in total darkness (up to 10 feet)
- Kit includes:
  - Power supply
  - 50' video-power cable
  - Swivel mounting bracket & hardware
  - BNC to RCA adapter

## SLC-153C Weatherproof Varifocal IR Camera

### Features

- Camera type: 1/3" Color CCD
- Video: NTSC, composite 1V p-p, 75 ohm
- Light sensitivity: 0.001 LUX IR on
- Iris: auto electronic
- Resolution: 540 lines
- Lens: 4mm - 9mm varifocal lens
- Power: 12VDC, approx 300mA
- Connections: Power- 2.1mm, Video
- Temperature Range: <10 to 120 Deg. F.
- Infrared Illuminators: 56 built into camera to view in total darkness
- Kit includes:
  - 50' video-power cable
  - Power Supply
  - Swivel mounting bracket & hardware

### SLC-153C

Fifty Six IR LEDs, a ruggedized weatherproof case, a varifocal lens, and high resolution imager make this camera a versatile solution to any surveillance system. The lens is easily adjusted from a wide angle 4mm to 9mm from the back of the camera, allowing a precise view of the area. The 540 line CCD imager displays a crisp, clear view even under low light conditions. As light levels decrease the 56 IR LEDs automatically turn on to restore visibility to the camera, even in total darkness. A heavy duty full adjustable mount, sunshield, cable, power supply, and mounting hardware are included.
