SLH320, SLH320HB Weatherproof Camera Housings

The SLH320 supplies a weather safe environment for your CCTV camera. Constructed of heavy gauge aluminum with rubber seals, this housing has a convenient hinged flip top for camera access and installation. An adjustable plate inside the housing allows installation of any camera that has a standard 1/4" x 20 thread. The camera can be aligned for viewing through the front glass bezel. The viewing glass measures 2.5" x 3.0" and overall housing size is 5"W x 4.5"H x 15"D. The housing includes a heavy duty pan and tilt bracket for adjustable viewing angle and heavy duty stainless steel mounting hardware.

For use with SLC-110, SLC-115, SLC-120 or any camera with a 1/4" x 20 standard mounting hole. The SLH320HB is a heated version of the SLH320 (described above) and is otherwise identical. The heater and blower fan inside the housing keep the front camera window clear of frost and humidity. The heater and fan work automatically and are thermostat controlled. The SLH320HB includes a power supply with 50' of cable.
